

Dual-hole Micro Capillary

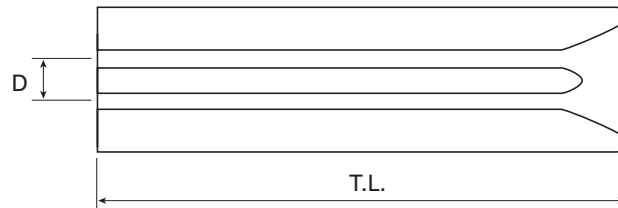

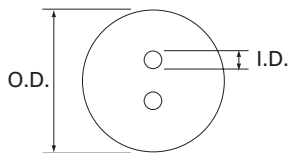

A Dual-hole Micro Capillary can align two fibers very precisely. It is possible to set up the distance of two fibers flexibly. Dual-hole Micro Capillary offers a simple solution to the alignment of two fibers.

Features

- High chemical durability
- High environmental durability
- Excellent polishing characteristic
- High UV transmittance → It is possible to use UV curable adhesive.

Dimensions (example)

(mm)

Subjects	Dimensions	Tolerance	
		HC Type	CC Type
Outer Diameter (O.D.)	1.800	±0.005	±0.01
Inner Diameter (I.D.)	0.127	±0.001	+0.003/-0.001
Distance (D)	0.132 - 0.250	±0.002	±0.005
Total Length (T.L.)	7.0	±0.2	±0.5

Other combinations of dimensions are available upon request.
