

DATA SHEET

E-Glass DWR (Direct roving) F-183

Product Description

F-183, direct roving is designed for woven, multi-axial fabric, and filament winding, pultrusion applications utilizing unsaturated polyester and vinyl ester resin systems.

Product Features

- Multi-compatible with unsaturated polyester, vinyl ester, and phenolic resin
- Fast wet out in thermoset resin systems.

Product Design: Nominal

Characteristics	Unit	F-183		
Tex Count	tex	290	575	2200
Filament Number	--	800	1600	6000
Filament Diameter	μm	13		
Loss on Ignition	%	0.50		
Moisture Content	%	Max.0.20		
Roll height	mm	185	250	
Packaging	Roll/pallet	80 (4*4*5)	48 (4*4*3)
