

The project is a multi-phase development of a new building. The first phase is the construction of the main building. The second phase is the construction of the new wing. The third phase is the construction of the new wing. The fourth phase is the construction of the new wing. The fifth phase is the construction of the new wing. The sixth phase is the construction of the new wing. The seventh phase is the construction of the new wing. The eighth phase is the construction of the new wing. The ninth phase is the construction of the new wing. The tenth phase is the construction of the new wing. The eleventh phase is the construction of the new wing. The twelfth phase is the construction of the new wing. The thirteenth phase is the construction of the new wing. The fourteenth phase is the construction of the new wing. The fifteenth phase is the construction of the new wing. The sixteenth phase is the construction of the new wing. The seventeenth phase is the construction of the new wing. The eighteenth phase is the construction of the new wing. The nineteenth phase is the construction of the new wing. The twentieth phase is the construction of the new wing. The twenty-first phase is the construction of the new wing. The twenty-second phase is the construction of the new wing. The twenty-third phase is the construction of the new wing. The twenty-fourth phase is the construction of the new wing. The twenty-fifth phase is the construction of the new wing. The twenty-sixth phase is the construction of the new wing. The twenty-seventh phase is the construction of the new wing. The twenty-eighth phase is the construction of the new wing. The twenty-ninth phase is the construction of the new wing. The thirtieth phase is the construction of the new wing. The thirty-first phase is the construction of the new wing. The thirty-second phase is the construction of the new wing. The thirty-third phase is the construction of the new wing. The thirty-fourth phase is the construction of the new wing. The thirty-fifth phase is the construction of the new wing. The thirty-sixth phase is the construction of the new wing. The thirty-seventh phase is the construction of the new wing. The thirty-eighth phase is the construction of the new wing. The thirty-ninth phase is the construction of the new wing. The fortieth phase is the construction of the new wing. The forty-first phase is the construction of the new wing. The forty-second phase is the construction of the new wing. The forty-third phase is the construction of the new wing. The forty-fourth phase is the construction of the new wing. The forty-fifth phase is the construction of the new wing. The forty-sixth phase is the construction of the new wing. The forty-seventh phase is the construction of the new wing. The forty-eighth phase is the construction of the new wing. The forty-ninth phase is the construction of the new wing. The fiftieth phase is the construction of the new wing. The fifty-first phase is the construction of the new wing. The fifty-second phase is the construction of the new wing. The fifty-third phase is the construction of the new wing. The fifty-fourth phase is the construction of the new wing. The fifty-fifth phase is the construction of the new wing. The fifty-sixth phase is the construction of the new wing. The fifty-seventh phase is the construction of the new wing. The fifty-eighth phase is the construction of the new wing. The fifty-ninth phase is the construction of the new wing. The sixtieth phase is the construction of the new wing. The sixty-first phase is the construction of the new wing. The sixty-second phase is the construction of the new wing. The sixty-third phase is the construction of the new wing. The sixty-fourth phase is the construction of the new wing. The sixty-fifth phase is the construction of the new wing. The sixty-sixth phase is the construction of the new wing. The sixty-seventh phase is the construction of the new wing. The sixty-eighth phase is the construction of the new wing. The sixty-ninth phase is the construction of the new wing. The seventieth phase is the construction of the new wing. The seventy-first phase is the construction of the new wing. The seventy-second phase is the construction of the new wing. The seventy-third phase is the construction of the new wing. The seventy-fourth phase is the construction of the new wing. The seventy-fifth phase is the construction of the new wing. The seventy-sixth phase is the construction of the new wing. The seventy-seventh phase is the construction of the new wing. The seventy-eighth phase is the construction of the new wing. The seventy-ninth phase is the construction of the new wing. The eightieth phase is the construction of the new wing. The eighty-first phase is the construction of the new wing. The eighty-second phase is the construction of the new wing. The eighty-third phase is the construction of the new wing. The eighty-fourth phase is the construction of the new wing. The eighty-fifth phase is the construction of the new wing. The eighty-sixth phase is the construction of the new wing. The eighty-seventh phase is the construction of the new wing. The eighty-eighth phase is the construction of the new wing. The eighty-ninth phase is the construction of the new wing. The ninetieth phase is the construction of the new wing. The ninety-first phase is the construction of the new wing. The ninety-second phase is the construction of the new wing. The ninety-third phase is the construction of the new wing. The ninety-fourth phase is the construction of the new wing. The ninety-fifth phase is the construction of the new wing. The ninety-sixth phase is the construction of the new wing. The ninety-seventh phase is the construction of the new wing. The ninety-eighth phase is the construction of the new wing. The ninety-ninth phase is the construction of the new wing. The hundredth phase is the construction of the new wing.

Architectural diagrams and icons including:

- 3D perspective of a building's structural frame.
- Icons for: window, door, furniture, etc.
- Three small architectural renderings showing interior spaces with people.
- Site plan and floor plan diagrams.
- Section drawing showing building height and structure.
