Elevate Your Kitchen with StellaShine™

Experience the perfect fusion of elegance and performance with StellaShine™, our premium glass-ceramic line for induction and gas cooktops.

With over 30 years of proven excellence, StellaShine™ embodies cutting-edge technology and unwavering quality.

Choose from a wide range of colors or create your own to match your ideal kitchen ambiance.

Our tailored solutions ensure every product meets your unique style and functional needs, bringing sophistication and reliability to the heart of your home.

Harmonize with Any Kitchen

Add a splash of personality to your kitchen with StellaShine™. Choose from timeless shades like classic black, white, charcoal gray and metallic silver to vibrant hues such as pastel pink, sky blue, and light green. There's a color to suit every style. Custom color adjustments are also available.

SAMPLE VARIATIONS | StellaShine™ N-0 (Transparent)

Additional glass colors are available upon request.

MATTE FINISH

StellaShine®

Elegant Matte Finish

The matte-finished StellaShine™ brings a refined touch of sophistication to your kitchen space. Functional and stylish, it blends modern design with everyday practicality. It's perfect for those who value both beauty and performance.

FEATURES | StellaShine™ N-0 (Transparent) / N-11 (Opaque white)

Anti-scratch

Silky surface with smooth texture

LED / LCD transmission (any color including white)

Clear finish can be applied to specific areas

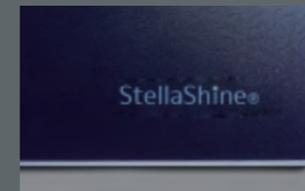

Texture and gloss level can be adjusted

Easy Clean Coat (option)

SAMPLE VARIATIONS | StellaShine™ N-0 (Transparent)

Clean White Color

The clean and sophisticated white top plate gives the kitchen a bright and clean impression.

It can also be printed with matte or colored matte finishes.

StellaShine™ has the largest global market share in the opaque white top plate market*.

*2024 results, according to our research

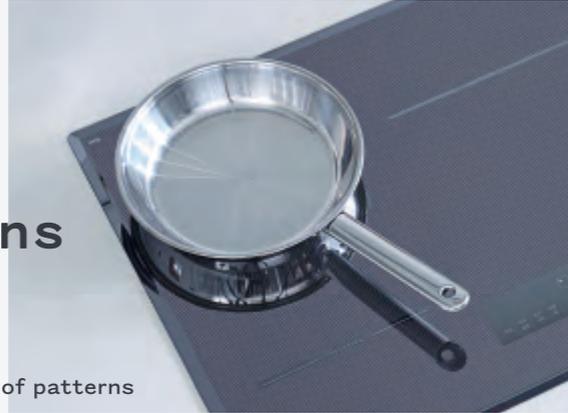

SAMPLE VARIATIONS | StellaShine™ N-11 (Opaque white)

A matte finish is available.

Additional glass colors are available upon request.

Gorgeous Patterns and Coatings

Customize StellaShine™ with a wide array of patterns that reflect your unique design vision and personal style.

Thanks to glossy printing and advanced coating techniques, StellaShine™ can achieve a metallic or mirror-like finish, delivering a sleek, modern aesthetic that transforms any space into a statement of sophistication.

SAMPLE VARIATIONS | StellaShine™ N-0 (Transparent)

Additional patterns and coatings are available upon request.

Brilliant Lighting and Intuitive Operation

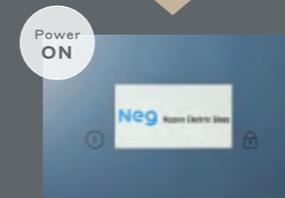

StellaShine™ transmits various LED colors and LCD displays, making it the ideal solution for sleek, integrated designs that demand both clarity and sophistication.

It also supports safety sensors and infrared sensors.

TRANSMISSION SPECIFICATIONS | StellaShine™ N-0 (Transparent)

LCD transmission

Printing is available on all areas except those that require transparency.

Dead front

When the power is off, text and icons are not visible. When it is on, light passes through the glass, making them appear.

Luster

By applying luster printing to the areas that require high light transmission, light transmittance is enhanced, allowing text and icons to appear clearly.

Gas Cooking

StellaShine™ can also be used on gas cooktops.

Tempered glass, which is commonly used for gas cooktops, may crack or even shatter over time due to aging.

However, StellaShine™ is safe.

It will not explode even if it breaks.

SAFETY

SAMPLE VARIATIONS | StellaShine™ N-0 (Transparent)

Additional glass colors and coatings are available upon request.
