Business Report for the 98th Fiscal Year

Period from January 1, 2016 to December 31, 2016

1. Status of Corporate Group

(1) Progress and results of operations

Overall trend

In the global economy, the economy continued to gradually recover in Europe. The US economy also enjoyed a recovery on the back of solid employment conditions and personal consumption. A modest economic slowdown continued in China, but there were signs of a recovery due to the effect of various policies. With solid personal consumption, the Japanese economy continued to make modest recovery, due in part to improved employment conditions.

Consolidated results of operations for the fiscal year under review

	97th Fiscal Year	98th Fiscal Year	
	(January 2015 to	(January 2016 to	Change
	December 2015)	December 2016)	
	Millions of yen	Millions of yen	%
Net sales	251,177	239,411	(4.7)
Operating income	22,034	19,571	(11.2)
Ordinary income	14,272	13,967	(2.1)
Profit attributable to owners of parent	9,636	4,968	(48.4)

Note: With the application of "Accounting Standard for Business Combinations" (ASBJ Statement No. 21, September 13, 2013), etc., the account item presentation for "net income" has been changed to "profit attributable to owners of parent" from the fiscal year under review.

In the Company Group, sales of glass fiber increased due to a solid market and contributions from PPG's European business, acquired. However, while shipments increased for the substrate glass for liquid crystal displays (LCDs), prices fell gradually, and as a result sales came in below levels compared to the previous fiscal year.

On October 1, 2016, The Company acquired PPG's European glass fiber business. PPG Industries (UK) Limited's glass fibers business was acquired by Electric Glass Fiber UK, Ltd., which was newly established by The Company. Also, The Company acquired shares of PPG Industries Fiber Glass B.V. and changed its company name to Electric Glass Fiber NL, B.V.

On the profit/loss side, sales fell, the value of sales declined due to the strong yen, and foreign exchange losses were posted, but improved productivity, lower raw material and fuel costs and other factors supported operating income and ordinary income. Profit attributable to owners of parent fell short of the previous year due to impairment loss on production facilities and the reversal of deferred tax assets, despite upside factors such as the reversal of provisions for special repair costs.

Sales by business category are as follows:

Category		97th Fiscal Year (January 2015 to December 2015)		98th Fiscal Year (January 2016 to December 2016)		Change	
		Net sales	Breakdown	Net sales	Breakdown	Amount	Percentage
Glass	Electronics and Information Technology	Millions of yen 167,050	% 66.5	Millions of yen 147,126	%	Millions of yen (19,923)	%
Business	Performance Materials and Others	84,127	33.5	92,285	38.5	8,158	9.7
	Total	251,177	100	239,411	100	(11,765)	(4.7)

Note: Beginning in the 98th fiscal year, the categories of the reporting segments for sales by product were changed from "Glass for Electronic and Information Devices" to "Electronics and Information Technology" and from "Glass for Others" to "Performance Materials and Others".

Electronics and Information Technology:

Shipments of substrate glass for LCDs gradually increased as demand for LCD panels recovered, but prices continued to fall slightly. Sales of cover glass for mobile devices (specialty glass for chemical strengthening) were affected by sluggish demand for smartphones. In glass for electronic devices, higher sales of new products contributed, but sales of glass for optical devices declined due to a slowdown in part of the communications infrastructure market. Sales of substrate glass for solar cells were generally firm.

As a result, net sales of Electronics and Information Technology amounted to ¥147,126 million, a year-on-year decrease 11.9%.

Performance Materials and Others:

Sales of glass fiber exceeded levels in the previous fiscal year. Although the value of sales declined for applications in high-function plastics for auto parts due to the strong yen, the market was solid in the fiscal year as a whole, shipments increased, and PPG's European glass fiber business, acquired in October 2016, contributed on the sales side. Sales of glass for building materials, glass tubing for pharmaceutical and medical use, and heat-resistant glass fell short of forecasts overall, although there were some variations in respective market conditions.

As a result, net sales of Performance Materials and Others amounted to ¥92,285 million, a year-on-year increase 9.7%.

(2) Capital investment

In Electronics and Information Technology, capital investment was made primarily for construction of production facilities at Electric Glass (Xiamen) Co., Ltd., while in Performance Materials and Others, capital investment was made mainly for the acquisition of PPG's European

glass fiber business.

(3) Fund procurement status

Funds required in the fiscal year under review were for capital investment, funds for the acquisition of PPG's European glass fiber business, funds for the redemption of bonds, and working capital, which the Company financed with its own funds and borrowings, among other means.

Aiming at flexible fund-raising, the Company has entered into a commitment line agreement for a total amount of ¥25 billion with financial institutions in Japan.

(4) Main Lenders (as of December 31, 2016)

Lender	Borrowing Amount
Sumitomo Mitsui Banking Corporation	¥11.6 billion
Sumitomo Mitsui Trust Bank, Limited	¥9.0 billion
The Shiga Bank, Ltd.	¥7.6 billion

¥8 per share of common stock of the Company; a total amount of ¥3,978,915,088

Proposal 2: Consolidation of Shares

1. Reason for conducting a consolidation of shares

Based on the Action Plan for Standardization of Trading Units, all domestic stock exchanges of Japan aim to achieve standardization of trading units of all common stock listed on the domestic stock exchanges of Japan by October 1, 2018. The standardized trading unit will be 100 shares. Out of respect for these aims as a company listed on the Tokyo Stock Exchange, the purpose of the consolidation of shares is to change the Company's share-trading unit from 1,000 shares to 100 shares and to adjust the investment unit to a level deemed preferable by all domestic stock exchanges of Japan (50,000 to 500,000 yen) while taking into consideration medium to long-term stock price fluctuations.

2. Ratio for the consolidation

We propose the consolidation of the Company's common stock at a ratio of one share for every five shares.

If there are any fractional shares as a result of this consolidation of shares, they will be disposed of at once by the Company based on the provisions of Article 235 of the Companies Act, and the proceeds from disposal will be distributed to shareholders holding fractional shares in accordance with the ratio of fractional shares.

3. Effective date of the consolidation of shares July 1, 2017

4. Total number of authorized shares as of the effective date 240 million shares

(Reference)

If this proposal is approved in its original form, the Company will partially amend its Articles of Incorporation to take effect on July 1, 2017 without the resolution of the shareholders meeting for the partial amendment of the Articles of Incorporation based on the provisions of Article 182 Paragraph 2 and Article 195 Paragraph 1 of the Companies Act.
