### **Power Outage at Our Shiga-Takatsuki Plant**

Around 1 a.m. on Thursday, December 10, 2020, our Shiga-Takatsuki Plant in Nagahama, Shiga, Japan, which mainly produces glass for flat panel displays (FPDs), lost power and the outage lasted for about five hours. This power outage has caused the suspension of production of glass for FPDs and we have been working toward an early restoration of production.

We deeply apologize for the inconvenience caused to all concerned.

The details identified at this point are as follows.

1. Date and time of occurrence

Around 1 a.m. on Thursday, December 10, 2020

2. Site of occurrence

Shiga-Takatsuki Plant, Nippon Electric Glass Co., Ltd.  
(1979 Takatsuki, Takatsuki-cho, Nagahama, Shiga, Japan)

3. Cause

The cause is currently under investigation.

4. Damage

No injuries to people have been reported.

Regarding property damage, some part of the production equipment for glass for FPDs has been damaged and production has been stopped. Currently, we have been investigating the extent of the damage and proceeding with replacement procurement for the damaged production equipment. We will make all-out efforts to resume production as soon as possible.

5. Impact on our business performance

Impact on the consolidated earnings for fiscal 2020 is currently under review. However, we do not expect it to have a significant impact on the consolidated earnings forecasts for fiscal 2020 disclosed on October 28, 2020. Moreover, impact on the consolidated earnings for fiscal 2021 is also under review. If we find that a large impact is expected, we will promptly make an announcement.
